

CampusOS // 21. & 22. Juni 2022

Satelliten-Workshop

Block 4 – Test- & Demonstration-Environments

Prof. Dr. Dirk Kutscher

Gefördert durch:

aufgrund eines Beschlusses
des Deutschen Bundestages

MAVERIC

Methodology for validation and test

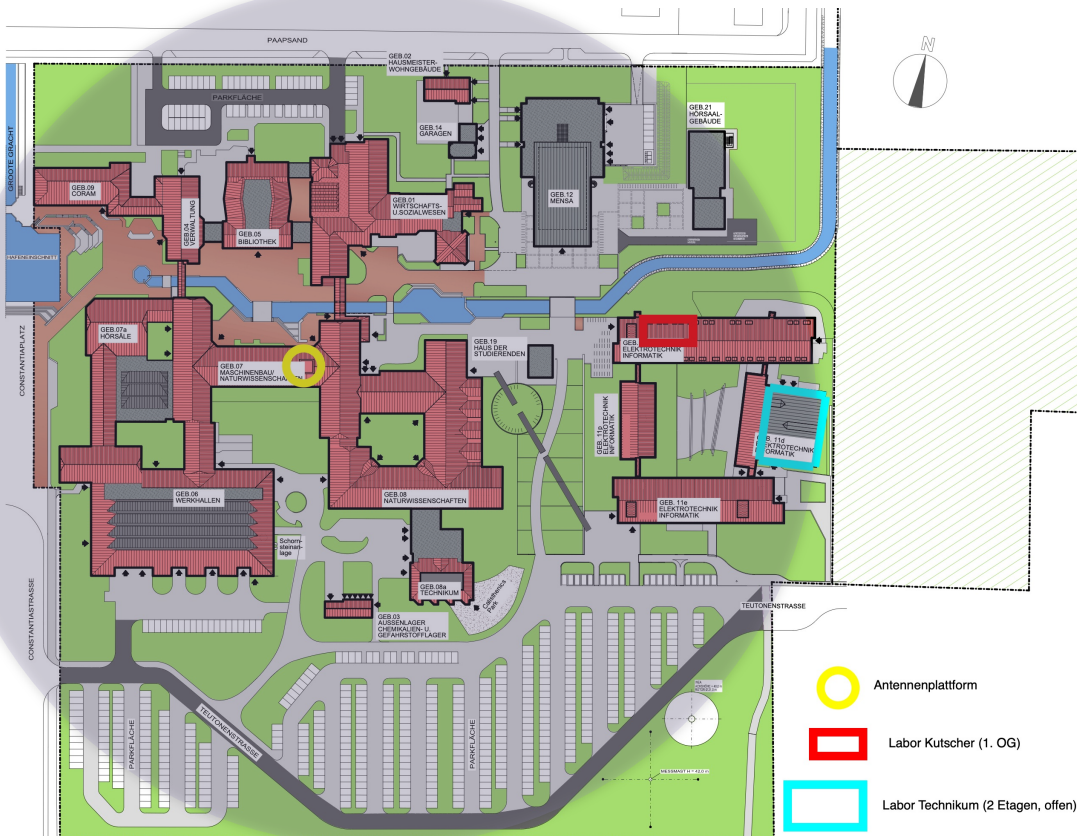

MAVERIC

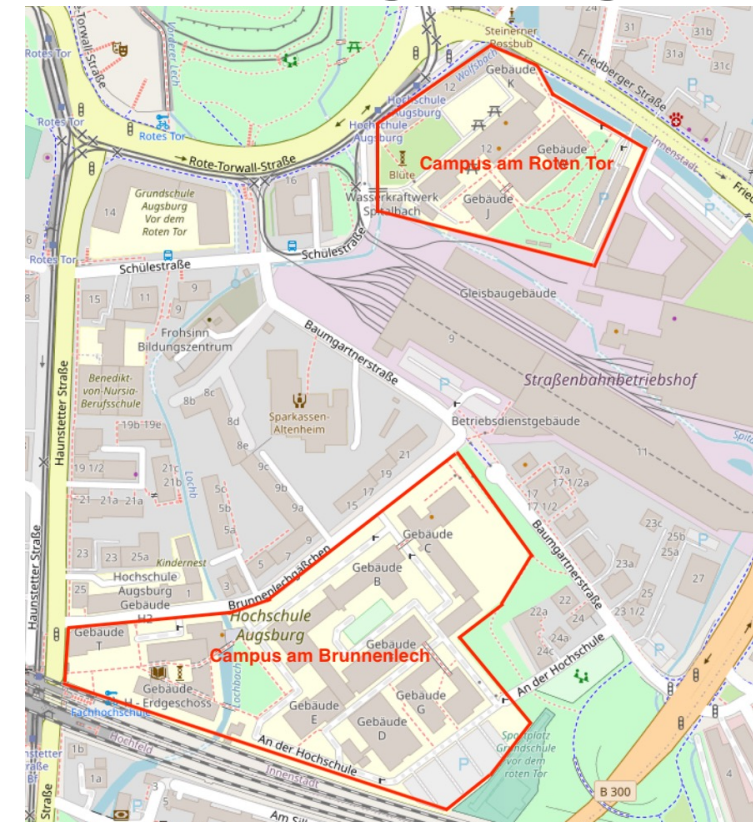

University Development Lab Networks: in 2022

Emden

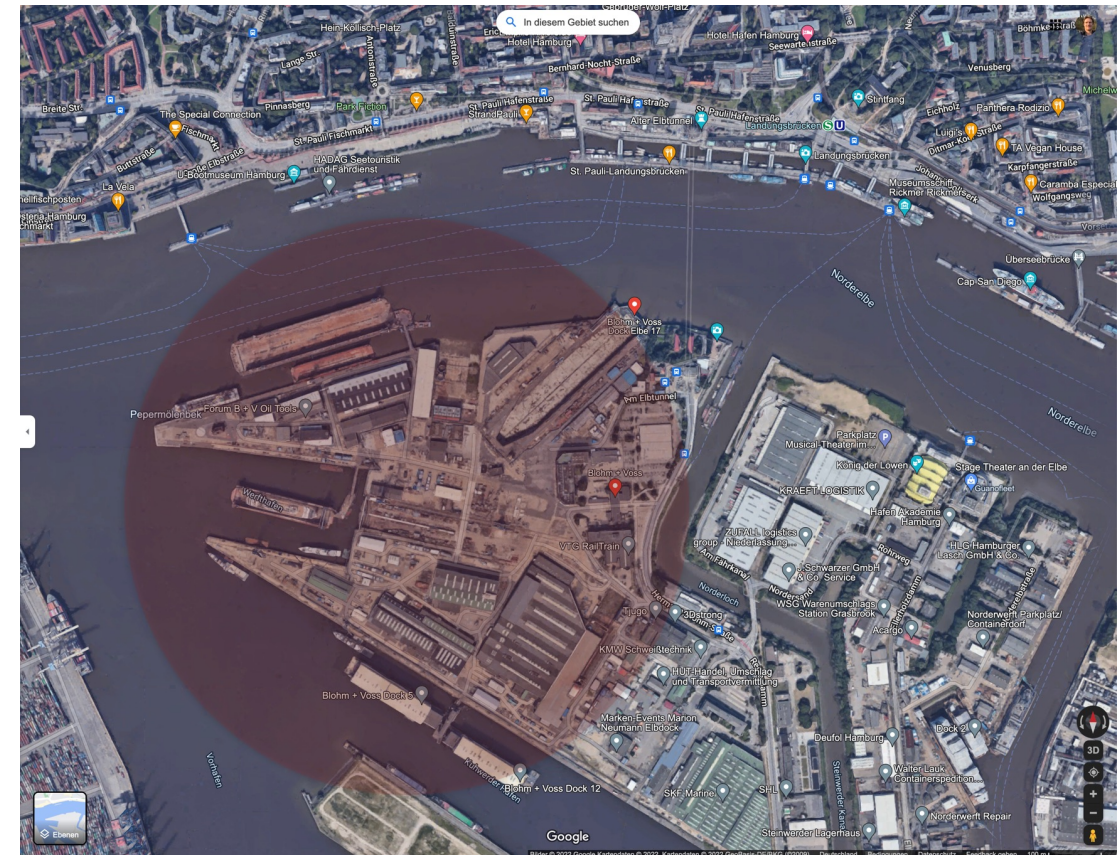

Augsburg

MAVERIC

NVL's Blohm&Voss Site: early 2023

- Network planning work in progress
- Evaluation will consider functional requirements but also operational and economical aspects
- For example: Overall comparison with existing WiFi infrastructure

Potential collaborations

○ Topics

- Deployment blueprints
- Architecture blueprints
- Interop experience

○ Ways of working

- Mailing list?
- Git repo & Wiki (i.e., github, gitlab)?

○ Caveats

- Proprietary knowhow and commercial interests
- NDAs (within project, with vendors)
- Overhead

○ Potential outcome

- Publication, recommendations?
- Workshops?
- Talks at industry fairs etc.

○ MAVERIC collaboration budget

- For collaboration with pilot project
